## DETAILED ACTION

### *Drawings*

1. The drawings are objected to because reference number "122" in figure 3B should be "222" to correspond to the same item (image sensing device) in figure 3A. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
2. Figures 2A and 2B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes

are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

3. Claims 10-12 are objected to because of the following informalities: Claims 10-12 are joined together in a single paragraph. Appropriate correction is required.

### ***Allowable Subject Matter***

4. Claims 1-12 are allowed.

5. The following is an examiner's statement of reasons for allowability: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-12, wherein the claimed invention comprises a lens, an image sensing device which includes a plurality of sensing cells, a plurality of microlenses on the plurality of sensing cells, the top surface of the plurality of microlenses having a plurality of notches which change the incident angle of an incident light ray and the bottom surface of the microlenses having a curved surface, as claimed. The combination of all the claimed features are not anticipated or made obvious by the prior art and all of said features are relied upon for a determination of allowability.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references are cited for disclosing a lens array used in a reading or sensing/detection device, but these references do not disclose a lens, an image sensing device which includes a plurality of sensing cells, a plurality of microlenses on the plurality of sensing cells, the top surface of the plurality of microlenses having a plurality of notches which change the incident angle of an incident light ray and the bottom surface of the microlenses having a curved surface, as claimed: Wirth et al. (4725138), Lee et al. (6679964), Lee et al. (20020135825) and Tanaami et al. (20040056098).

7. This application is in condition for allowance except for the following formal matters:  
See items 1-3 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
